

# *LINWOOD SUPPLY, INC*

## VEGETATION MANAGEMENT

Products for Veg Management (herbicides) are listed by the trade name; many have more than one name or formulation (AS, DF, WPS, WDG, L, WP, G and so on). If you are unsure how to specify exactly what you need, please call us. Written Recommendations are also available.

**Linwood Supply is a California based Certified Small Business {# 24645}**. Our VM customers have included Cal Trans, Water Resources, the Highway Patrol, large land owners, contractors, many cities and county governments, developers and others who control and maintain large areas of land. We always strive to provide prompt response for assistance, quotation and delivery.

There are many “generic” products available. Our Pest Control Advisor and Certified Crop Advisor have determined those that meet our high standards of consistent quality and performance.

A partial listing of the herbicides we supply:
